Full-time Workload:

Approximately how many courses are in a full-time load? How many credits per semester? How many contact hours per course? How many weeks do courses run?

Students at IIMB take a minimum of 15 and a maximum of 21 credits per term. Courses are usually 3 credits each but can be 2 credits as well. One credit implies one contact hour per week in the classroom. Most courses will require an average of about two hours of work outside the classroom in the form of readings, assignments, projects etc, for every hour of classroom contact.

The number of credit hours taken by exchange students is determined by their school. Usually, exchange students find the program to be rigorous academically and take four or five 3-credit courses.

What is class format? How are class participation and attendance evaluated? What are class sizes?

The class format may be any one of these formats or a combination thereof: Lectures, classroom discussions, case studies, individual and group projects, term papers, role plays, student projects, dissertations, business games and films.

Every course will have a clear calendar of sessions and this will be made available to the students by the Post Graduate Programme (PGP) office on the
Minimum attendance of 75 percent is required in every course. The PGP Office will keep a record of attendance in all courses. Students who do not meet the minimum attendance norm in a course will be awarded one full grade point lower than that secured by them in that course. This will be done by the PGP office and the teaching faculty concerned will be informed of the same.

The size of the class depends upon the number of students opting for a particular course. But there should be a minimum of fifteen students in a particular course, if it is to be taught.
